

2011 was a big year for us. The first 7 months were very focused on moving to start work in Nigeria. Then the next 5 months were learning how to work in Nigeria! As we reflect on the past year, we have been blessed by God in so many ways, it is impossible to recall them all. Often he has used the people around us. We can't thank you enough for being our partners in every way, in the run up to and as we serve God in Nigeria.

March

Tim was responsible for a 3rd tour of "From Eden to Eternity" in partnership with Saltmine Theatre company. 20 dates including Dublin, Stormont in Belfast, Scotland and all over England.

May

We thoroughly enjoyed the wedding of a friend of ours. Esther Schwarz is a family friend from our church, but was also very involved in WYnet for many years. She married Tyrone, a fantastic South African lad, and they are now in SA working on WYnet! It is always a blast to see the youth you have been ministering to, going on to serve God.

July

Just after school ended in England and after postponed flights, due to a hold up in visas being issued, we finally made the journey to Jos in Nigeria.

August

A couple weeks after arriving, Dan started school. He is in Grade 2, his teacher is called Miss Fry and he is doing well. He has made friends and adjusted well to the big campus style of his school here.

September

Not a highlight as such, but we experience our first taste of trouble in Jos. Some clashes between Christians and Muslims flared up. We got stocked up, felt very supported by our friends on the compound and the folks at the office. They are very well equipped to communicate with us, check we're doing okay and make sure people are being wise. It is a great comfort knowing we are part of a brilliant community out here.

October

Excited to host our first visitors. Phil Prior and Hannah Thomas who work in the marketing department of Wycliffe UK, people we have worked with and been friends with since before we moved, were out here on a work trip to take photos, video and gather stories to fuel the publicity for Wycliffe UK during 2012.

Tim took them to visit a variety of different projects in different locations all at different stages of translation. It was great fun to get out there and see the actual work going on.

December

An impromptu holiday with some good friends of ours involved a 15 hour drive split over 2 days, almost to Cameroon. We camped out on the sandy banks of a river, ate freshly caught fish, swam, and relaxed by the camp fire. It was so much fun and so relaxing. You can see some more pictures on [our website](#) or on [facebook](#).
